CERTIFICATIONS AND AFFILIATIONS

- Member of IEEE and IEEE Computer Society
- React Course with Jonas Schmedtmann

SKILLS

Frontend
- HTML/CSS
- JavaScript
- React
- Next.js
- Rest API

Design and Tools
- Figma
- Git

Backend and Databases
- MySQL
- PostgreSQL
- Java (Spring Boot)

EXPERIENCE

Data Analyst and Front-end Developer
PBS EL SALVADOR | PRINT AND DIGITAL SOLUTIONS
FEB 2024 - PRESENT

- Built and optimized backend automation workflows for high-volume document production using Java and Groovy, leveraging job queues to manage asynchronous tasks and improve process efficiency.
- Designed and implemented PostgreSQL databases for internal tools, including schema modeling and performance tuning.
- Developed and deployed a regional internal tool using JavaScript and REST APIs to automate technical visit reports, enabling automatic email distribution to end clients.
- Collaborated with Atlantida Insurance in Honduras, contributing to the development and design of a digital customer onboarding platform and an internal back-office system for data management with Figma and React.

PERSONAL FRONTEND PROJECTS

Orkesta – Task Management App (React):
- Developed a to-do and project tracking application to manage personal and team workflows with a Spring Boot backend

Travelling Map App (React + Leaflet)
- Developed a web app to track visited countries and cities with an interactive map interface.

EDUCATION

2024 - PRESENT	**DON BOSCO UNIVERSITY** Computer Science Engineering
